**Minister for Sustainability, Environment, Water, Population and Communities**

B11/359

Mr Greg L'Estrange  
Managing Director  
Gunns Limited  
PO Box 572  
LAUNCESTON TAS 7250

10 MAR 2011

Dear Mr L'Estrange

I refer to *Environment Protection and Biodiversity Conservation Act 1999* approval EPBC 2007/3385 to construct and operate a bleached Kraft pulp mill at Bell Bay, Tasmania, and associated infrastructure, and the Environmental Impact Management Plan (EIMP) prepared by Gunns Limited under that approval.

I have considered the remaining Modules L, M (including the C-BOMP) and N of the EIMP along with the advice from the Independent Expert Group. I advise that I have decided to approve Modules L, M and N.

I have also approved amendments to Modules A, D and F-G-H-K as requested.

In addition, I have approved the variations of the approval conditions and the replacement of the maps in schedule 1 pursuant to subsection 143(1)(c) of the EPBC Act as formally agreed in Gunns Limited's letter of 16 February 2011.

Yours sincerely

A handwritten signature in blue ink that reads 'Tony Burke'.

Tony Burke

### **Variation of Conditions attached to the approval**

1. The action shall be as per the site maps at Schedule 1.

32. Gunns Limited must sample the effluent discharge from the operation of the pulp mill on at least a daily basis. Subject to the EIMP the pulp mill must not operate if the monthly average effluent concentrations from the pulp mill exceed the maximum limits provided in the EIMP.

41) (g) The effluent monitoring regime must be consistent with Australian Standard AS5667.10

49. If the person taking the action wishes to carry out any activity otherwise than in accordance with the plan referred to in condition 2 the person taking the action must submit for the Minister's approval a revised version of that plan. The varied activity shall not commence until the Minister has approved the varied plan in writing. The Minister will not approve a varied plan unless the revised plan would result in an equivalent or improved environmental outcome over time. If the Minister approves the revised plan, that plan must be implemented in place of the plan originally approved.
